

# What's hiding in your vaping e-liquids?

Nicotine

Flavoring chemicals including

- Diacetyl
- 2,3-Pentanedione
- Acetoin

WARNING:  
This product contains  
Nicotine is an add

# The vaping industry is largely unregulated. In fact, many product labels are inaccurate.

Manufacturers are **not required to test** the e-liquids used in their products.

Independent lab tests have found that many contain **harmful chemicals known to cause permanent lung damage.**
